The last seven months were hard to predict. So is the future. I was concerned like the rest of us when the so called pandemic started. Then the state of California shut down after their first Covid-19 case.

Then it was the toilet paper.
The social distancing.
The mask.

Wait a minute. Do we really think we can stop this invisible enemy? We've tried stopping the flu with no avail. Every election year since 2004 has had a virus/disease/flu... of some sort.

"THINGS ARE NOT WHAT THEY SEEM"!

Four years ago, the Holy Spirit told me "Glen, things are not what they seem". In response, I decided to do my own research. For whatever reason, I began looking at 9/11 and what the so called "conspiracy theorists" were saying. Little by little I realized something wasn't right. (By the way, most of those youtube videos have been taken down)

After looking at several tragic events, I realized that I had been duped. I discerned what I heard from the Holy Spirit was completely accurate; things are not what they seem.

Did you know that 800,000 children go missing every year in the United States? Stop and think about that. That's the entire state of South Dakota.

Did you know the U.S hired many Nazi war criminals? Some of them had jail sentences reduced.

Did you know the head of N.A.S.A. was a Nazi? And on and on.

Is History Repeating Itself?

I wonder; is Covid-19 about controlling people, and a dress rehearsal for the New World Order? Before you say no way, let me remind you of what happened to the Jews.

- 1) First the Jewish people were defined as "different", and had to wear the star of David.
- 2) Next, they were separated from the rest of the German people.
- 3) Third, the Jews were encouraged to leave Germany.
- 4) Fourth, they were segregated into ghettos.
- 5) Fifth, they were forced from ghettos into concentration camps.
- 6) Finally, mass murder.

I wonder if the Jews could predict the progression from being labeled as different to the concentration camps? Clearly the Nazi's had a long term plan.

Here's a scenario to consider concerning the COVID virus:

- 1) First, the world is made to believe that there's a pandemic (seriously, how would we know or verify all these deaths).
- 2) Next, we must separate and social distance
- 3) Deploy masks
- 4) Crush the economy by encouraging business owners to make employees go home for risk of getting sick
- 5) Create and mandate a vaccine
- 6) Name those who don't take the vaccine 'terrorists', and make them wear something on their person or carry papers
- 7) Persecute the "terrorists".

Not possible?

Did you ever think it possible to shut down the entire Catholic Church?

Did you imagine so many people wearing masks to stop a virus?

Did you imagine social distancing?

Did anyone predict censoring (Facebook, Youtube and Twitter)?

Mark Twain said "It is easier to fool a person than it is to convince him that he has been fooled."

Thirty years ago I had this dream:

I was home in my bedroom on a hot Summer's evening, probably the month of August. It was 1990. I woke up around 11:00 pm to oohs and ahhs outside my bedroom window. Hundreds of people where present in our farmyard looking up into the western sky above the tree line. In the pitch black sky, there were different colors patterns happening, much like what apple uses on an iphone when conjuring Siri. The experience was unlike no other, for no human eye had witnessed such a sight.

After finding myself fixed in the nighttime sky amazed like the rest of the people, I heard a voice say "Glen". I turned the opposite way, and there was Jesus, standing on the top of the steps upstairs in our farmhouse. After looking at him for a split second, I woke up.

I believe the dream is speaking about this year, and is directly related to what is going on in our world. Almost everyone is focused on the virus, but very few are investigating the shenanigans happening in the background.

Why aren't we talking about the 800,000 children that go missing every year and the worldwide pedophile ring?

Every human being is made in the image and likeness of God. What does this mean? We look and act like God unlike the angels and animals. This life and love of God is expressed to the world THROUGH human persons. Persons have worth, rights, and responsibilities.

Let me ask you:

What is dignifying about running around like a mad man trying to find toilet paper?

What is dignifying about social distancing?

What is dignifying about wearing a mask?

What is dignifying about being segregated in every other pew during church services?

What's more powerful, a virus or sanctifying grace? HAVE WE NOT SHARED THE CUP AT MASS FOR THE LAST FIFTY YEARS?!!!!!!!!!!!!!!!!!!!!!!

We are being played. This is an attack on the Church and society. Some group is trying change the way the world works, and right now, is winning.

There's nothing reasonable about the masks. It doesn't matter what mask you wear, as long as you cover your face. Nor is there scientific proof they're effective. I saw someone wearing panty hose in Walmart. The point is, comply.

What has happened to the integrity of the Catholic and other mainline denominational churches?

Since when does the Government dictate how we worship? What happened to our evangelical efforts to change the world? Did a virus now downgraded by the CDC to nothing more than the flu change all of this?

Friends, It's time to wake up. Something else is going on before us. It's subtle. It's serious. Satan is behind every move. The future of the Christian Church is at stake.

You don't believe me? The Diocese of Sioux Falls is the only diocese to reinstate the obligation to attend Sunday liturgy. How come no other Bishop has followed Bishop DeGrood's lead?

We live in the world where faith is talked about, but not really lived. Sunday after Sunday our Pastors challenge us to believe and trust God, yet they themselves, who have much more formation than we, find themselves in a severe lack of faith.

Jesus said, "You not have eyes but cannot see, ears but cannot hear?" (Mark 8:18)

I wonder, who is he talking about?
